Question #	Reference	Question	EGPAF Response
1	Deliverable #4: Implementation of the digital solutions plan, per the final implementation plan and budget	entail the training of trainers, providing hand-holding support to sample of workers, monitoring support, tier 1 trouble shooting support for few initial months	The task is to develop, validate, and evaluate for effectiveness and potential for scalability by the end of a 12 month period. The bidder should propose the appropriate level of scale required to demonstrate effectiveness.
		May we request you to please clarify what is the scale of implementation and duration of maintenance support EGPAF is expecting a selected vendor to provide once the digital platform is developed.	
2	the Contractor is responsible for providing equipment and/or supplies required to perform the services	device. Is expected that the selected vendor will also supply these hand-held devices to the health workers? If yes, to how many healthcare workers	The bidder should propose the appropriate specifications for hand held devices – the proposed solution should be usable on a regular as well as smart phone (Android is more common in this setting)
3	All applicants are required to be registered and authorized to perform the scope of work in the place of performance. A copy of valid registration must be submitted with each proposal	Africa, with 10 offices and work across 20 African	One would need to find out local requirements for short term business contracts /consultancies for non-locally registered entities.
